

## Personal profile

I moved to Boddington just over 18 months ago was fortunate to obtain a property where I could bring my son, daughter in-law and four grandchildren. This is where I and my family now call home.

Throughout my working life, I have had a few career changes from Plumber (self employed), Engine Fitter – RAAF, Police Officer WA, Building/Health Compliance Officer (Local Government) to my current role as an Education Assistant at the Boddington District High School.

As a Police Officer of 26 years plus, serving over 16 years within the Community Engagement Portfolio, I gained a passion for the community space by improving the quality of lives through capacity building, especially among the youth and older community members. This has provided me with a diverse and comprehensive experience of community issues and concerns.

I am a compassionate and community focused individual with a desire to make a difference to the lives of others.

I am able to develop and maintain strong working relationships with both my colleagues and other key stakeholders.

I will strive to be a strong voice on council, advocating not only for you but also for the voiceless youth in our surrounding environment, when supporting the council in its policies and plans for development.

If afforded the opportunity to represent the community as a councillor of the Shire of Boddington I will do so with enthusiasm, integrity, a strong work ethic and concern for the position.
